

Braidwater Brochure Update

Due to global supply chain issues (throughout the house building industry), Braidwater is reluctantly advising new purchasers that some products, as detailed in the brochure, may not be available.

This is an ongoing development due to Brexit & Covid which can change rapidly and is expected to continue until the end of the year (at least).

However, our sales agents and sales manager will be on hand to guide you through any impact and Braidwater will supply product/s of equal quality and value, giving you peace of mind.
